The Shooting Star
by, James Gulick

A shooting star
A knight in the sky.
A world is born,
and then does die.
The burial is sweet,
and so was the birth.
When all was done,
they were symbols of worth.
It starts again.

A shooting star.
A knight in the sky.
When we leave,
our world does die.

"C.R.E.A.M."

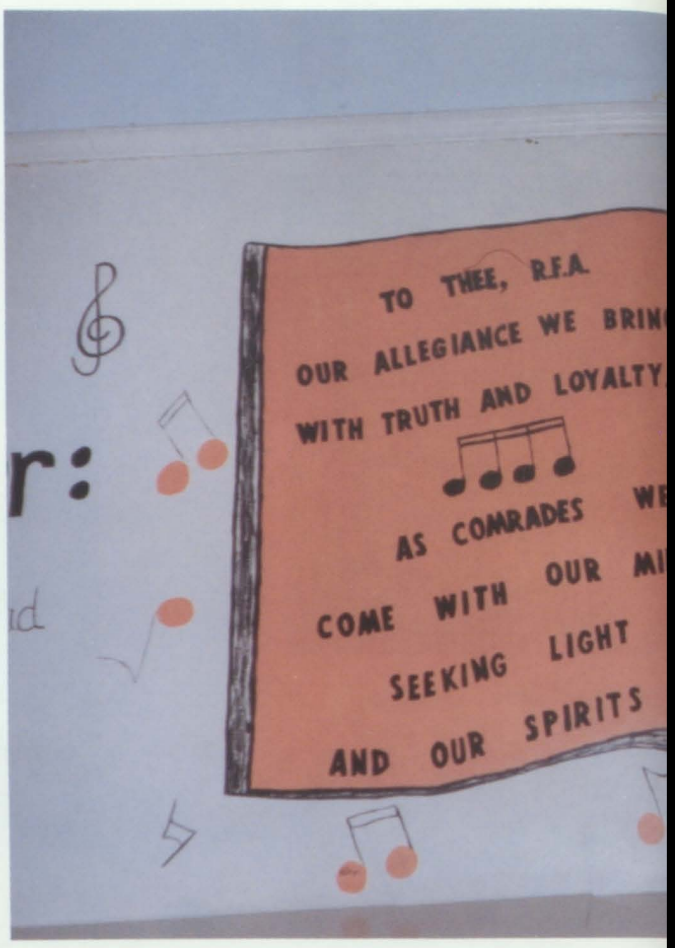
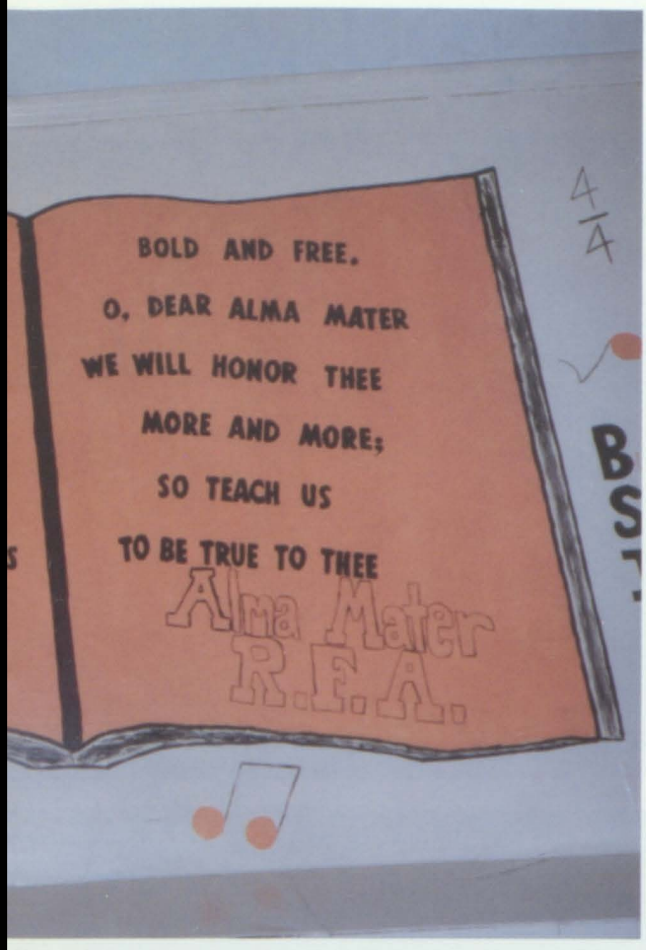
RHYTHM OF THE . . .



The Knight and Mrs. Jennie.



The Rome Free Academy student body is comprised of students whose music preferences are varied and diverse. These music preferences are unique in that they represent the particular personalities in the school. Music can reflect the type of person one is while demonstrating that we all share a common interest.

This year, the 1997 yearbook staff selected the theme "Rhythm of the Knight" to represent the many activities students participate in at Rome Free Academy. The student body is made up of unique individuals with a wide variety of talents. The songs we have chosen, hopefully will relate to many of you. Our goal in selecting this theme was to offer songs which evoke great memories through out your lifetime.

However, when we look to the future: at our endless opportunities, we realize that ". . . (we) Feel Fine." Life is something to look forward to: an exciting unknown.

When we look back at our years at RFA, we remember the times we have shared with our friends. Friday night football games, and countless sporting events, Proms, Semi-formals, and a Class Picture. We've done many great things and we have many more to accomplish.

As we look ahead, we realize what the future holds can be more exciting than what we are leaving behind. There are many doors out there waiting to be opened. Good Luck in the future Class of 1997!!!!!!!

(Sentinel photo by John Clifford)

Each year the Rome Free Academy athletics department recruits a group of talented athletes. Students promote school spirit by attending the seasonal events, cheering for the athletes, and awarding them with much acknowledgement. Athletes not only achieve their goals on the field, but also in the classroom. The athletes would like to extend their gratitude to all the parents and surrounding community for the support they have shown throughout the years.

FOOTBALL

The 1996 RFA football team went further than any other football team in school history. Their first major triumph was when they beat Henniger at the Carrier Dome, with a 16-12 victory, to gain the Section III Championship. The next week, they faced Horseheads, which they won with a blowout. The following weekend, they were off to Alfred to play East High of Rochester. RFA won this one with yet another blowout, 27-0. The next weekend would be the final and most important game to many of the players. It was the State Finals and they faced Yonkers Roosevelt High at the Carrier Dome. Everyone in Rome was behind them all the way. As they left Rome with a police escort, people lined up along the streets to wave them on and to wish them the best of luck. RFA played a tough game, but lost to Roosevelt 27-14. This ended their season with a 11-2 record. Even though they did not win, they had the most tremendous season that anyone could possibly ask for. The whole town is proud of these young athletes. To show their appreciation, there was a congratulations ceremony that the public was invited to. This season will be one to always remember.

In the past the yearbook has been just a book that comes out at the end of the year. Students outside of the staff never think much about the book until they receive it in June. This year, as with every year, the yearbook staff has been busy working towards deadlines and other goals. We have done many great things with our book this year including a senior class picture. This year more than last, every member of the staff has worked on nearly all of the sections. It was a real example of teamwork at its best. We thank all of the staff for their excellent contributions of time and commitment.

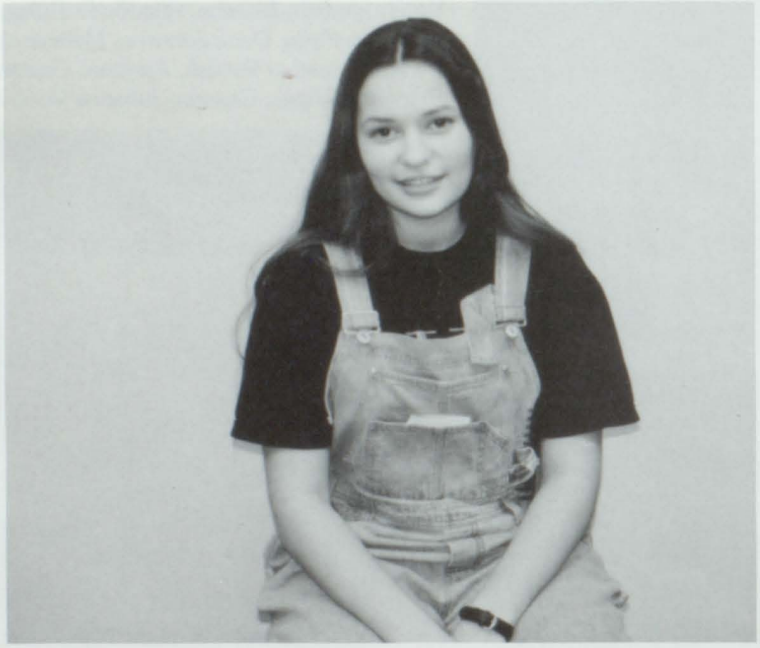
WE ARE THE WORLD



Ksenia Roumiantseua- Ksenia, or Sue, as she likes to be called, is from Russia. She is a junior at RFA this year, and she came to the U.S. because she thought it would be interesting to learn about American culture, and to learn the language. She thinks she might want to become a doctor or something connected with the language in the future. Her school back home is quite different from RFA in that there is at least 15 courses for everybody. She loves it here and she says her favorite classes are Pre-Calculus and American History.

Nevena Kocovic-Nevena hails from Yugoslavia. She is a senior at RFA this year. She came to America to get familiar with American culture, the way of life, and to learn English. She wants to become an engineer in the future. She enjoys all of her classes here at RFA. She says that the teachers back home are more strict, they have 15 courses a year, and the teachers change classes, not the students. She says that she is used to living in a big city, so she wishes Rome were bigger.

Gustavo DeSousa-Gustavo is from Brazil. He is a sophomore this year RFA. He came to America to learn another culture. He plans on being English translator in the future. His favorite class at RFA is lifeguard aining. Back home, he is involved in swimming and English club. He says at RFA is bigger than his school back home, and the teachers have to ange classes, not the students. He likes everything here, but he thinks ome is strange because it is so small.

Mateus Lima Silveira-Mateus' hometown is Belo Horizonte, Brazil. He is a senior at RFA this year. He came to America to learn about new cultures, people, and to make new friends. He also wants to improve his English and teach people about his country. His future plans are to go to college in the U.S. He likes all his classes at RFA, but his favorite are Computer Aid Design and Calculus. He was on the RFA soccer team and swimming team, and back home, he participates in Jiu-Jitsu, which is a type of wrestling. He says he likes RFA a lot and Rome is very different from his home. He thanks Joe, Sheri, and RFA for this year.

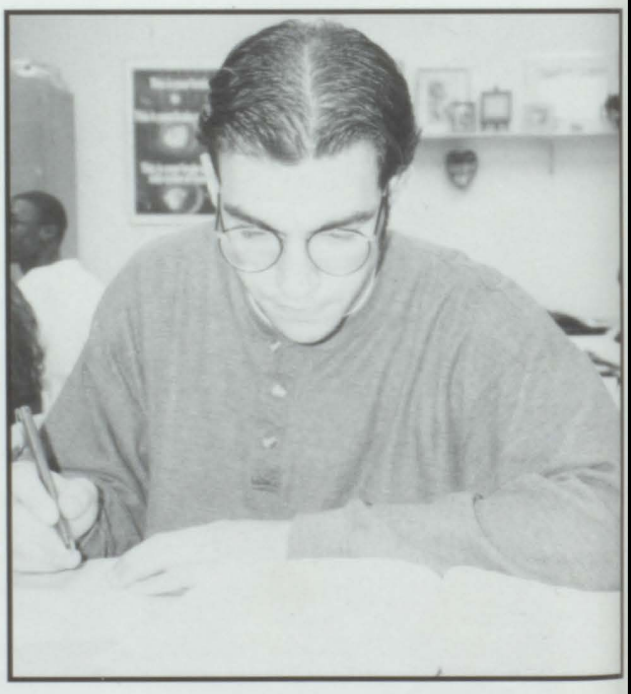
Alvaro Gonzalez Llorente-Alvaro is from Spain and he is a senior at FA this year. He came to America to learn to speak English. He wants become a pilot or study physical therapy in the future. His favorite asses at RFA are Pre-Calculus and Technical Drawing. Alvaro was on the FA boy's swimming team. His school in Spain is Catholic and all the achers are priests. The differences between Rome and Spain are Rome too cold for his taste; in Spain the lowests are in the 50s or 60s. He also ys if you don't have a car, you can't do anything.

Marco Andres Ortega Valenzuela-Marco hails from Chile and he is a senior at RFA. He came to America to learn English and to have fun wih his friends here. His future plans include going back to Chile to attend college. He plans to study civil engineering. His favorite class at RFA is Algebra with Mr. Corredine, but he feels that it is difficult to understand because Mr. Corredine talks too fast for him. Marco was on the RFA soccer team and swimming team and he says back home he plays volleyball, tennis, and soccer. Marco's school back home is Catholic, so they have to wear uniforms. Marco really likes the people at RFA, but he dislikes not being able to drive, because it is difficult to go out.

BUSINESS

Jennifer Burke, Candace Mangino, Cherie White, Michele Knudsen, Amanda Smothers, Matt Savery, and Erin Mumford are having 'fun' while working on pages and pages for the business section.

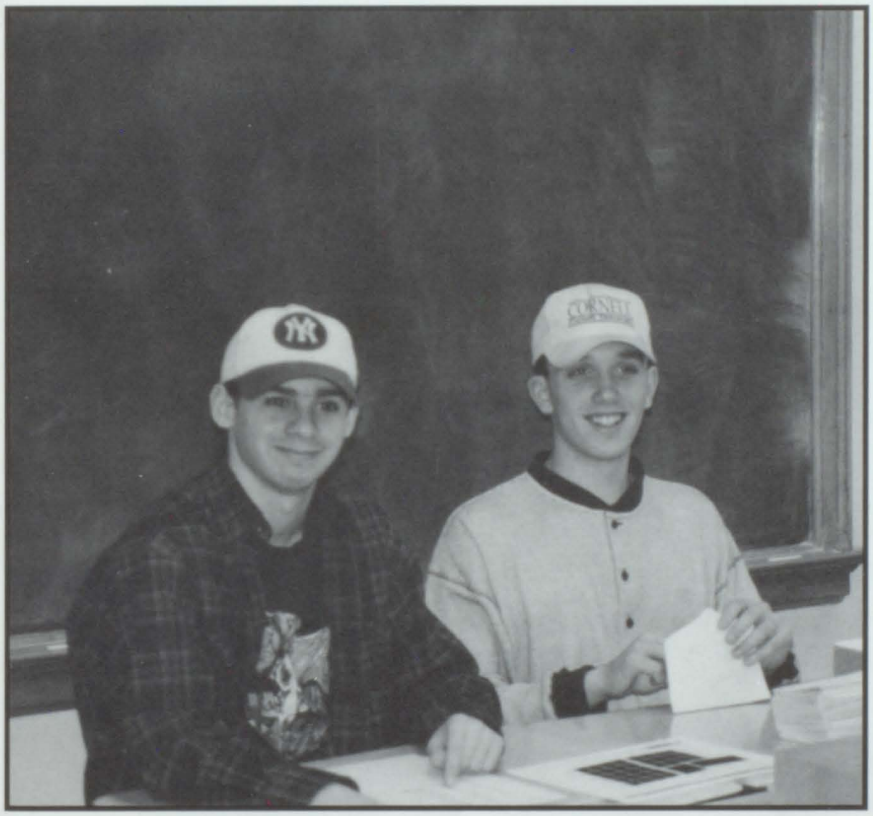
The Sophomore Mentor Program was initiated this year at RFA. Members of the business community were invited to speak to sophomores about expectations for their workplace demeanor. Presenters from left to right are: Joseph Pecorello, Mona Rice, Rose Raymond, and Jessie Didio.



A business executive in the making? Senior Anthony Bas works on an assignment during Ms. Cataldo's math class.

Businesses in this area have experienced tremendous changes these past few years. Their support of the youth of our city, however, has remained the same. The yearbook staff and student body of Rome Free Academy would like to sincerely thank our advertisers who have contributed to this section of the 1997 edition of the De-O-Wain-Sta.

Tamara Steck uses her persuasive sales techniques to solicit an ad from Mercedes Ziegler at the Rome Savings Bank.



Sam Esposito and Nick Cimino work diligently to complete a layout for an impending deadline---oh, the pressure!!

Mr. Kenny oversees the Knight Spot, a store at RFA managed by students in the Business Ownership class.

Life long friendships and everlasting lessons,
The use of wisdom and thought when class is out of session.
Our hopes, our dreams, and our futures are near
Although the outcome of our lives is uncertain;
one thing is very clear,
Wherever we are, however far,
The knowledge we've gained at the academy will
help us to become "shooting stars."
When the future is within our sights,
We can know everything will be all right;
... After all, we are the Black "Knights!"
